Celebrating 20+ Years of Missionary Work

JUNE 2026

Open Doors and Adversaries

We recently shared the testimony of a young man who came to Christ and now desires to produce gospel content to evangelize Muslims. He comes from a prominent Muslim family who are now actively looking for him. Church leaders have reached the conclusion that his life is in danger if he remains in our country. Pray for this young man. He still desires to evangelize but needs to relocate to a safe country. I plan to visit him once he is established and help him produce content in a safe but effective way. We have already raised some money to help with his travel and moving expenses. We trust the Lord to provide for his needs and safely conduct him to another location.

Training. Recruiting. Church Planting

I return to Senegal in July for a 3-week trip. During this time, I will visit Gambia to conduct a training seminar on evangelism and church planting, work with Pastor Lawrence as he leads Bible studies for a new church plant, and deliver materials for distribution and evangelism. We praise the Lord for everyone who gave to the work in the Gambia. We have raised \$12k, which is \$2k over our initial goal.

While in Gambia, I will need to file paperwork for a missionary couple, Mike and Terrie Carson, who will move to Gambia at the end of the year to partner with Pastor Samuel and the Living Hope Baptist Church. Pray all goes smoothly.

Lastly, we will receive a missionary couple and their family from Haiti in the coming months. They plan to partner with our church in Northern Senegal. This is an answer to prayer! We will complete construction on an apartment on our church property for this couple to live in. Please pray, as we need about \$10,000 more to finish the apartment and furnish it for this couple.

We will be on furlough during 2026–2027. If your church would like to schedule Josh for an in-person update, a mission Sunday message, or an Islamic Evangelism seminar, please reach out using the email or phone number listed below.
